Foreword	7
Contents	9

I. PAPERS OF GENERAL INTEREST

<i>In vivo</i> and <i>in vitro</i> fertilization in humans. Cell biology and clinical studies P. M. Motta	23
Pixe: A technique for observations on trace element concentrations in human tissue D.F. Peach and D.W. Lane	29
Immunopathological reaction to orthopaedic biomaterial: the role of cytokines N. Al-Saffar, M.G. Burrows, P.A. Revell	37
Morphological and clinical characterization of the dentin M. Toledano	51
T-DNA insertional mutants are powerful tools for applied reverse genetics A.R. Craciun, M. Vauterin, Fabienne Granier, D. Bouchez, M. Jacobs	61

New functional involvement of eicosanoids at the cell level - Eicosanoids synthesized by mono-oxygenase cytochrome P450 dependent
M. Nechifor 71

In vitro human acrosome reaction—ultrastructural aspects.
I. Checiu, C. Craciun, Maria Checiu, Delia Checiu 78

II. CELLULAR AND MOLECULAR INTERACTIONS IN ATHEROGENESIS AND DIABETES

Clotrimazole inhibits the increase of intracellular free calcium induced by vasoactive agents in smooth muscle cells
Monica Raicu, Stela Florea, Maya Simionescu 89

Ex vivo parameters defining the stage of the atherosclerotic disease
Camelia Stancu, Anca Sima, Daniela Toporan, L. Niculescu, Maya Simionescu 95

In vivo uptake and transcytosis of LDL in the arterial wall of the hyperlipemic hamster
Anca Sima, Camelia Stancu, Elena Constantinescu, Laura Ologeanu, Maya Simionescu 101

Antioxidant vitamin E and C treatment in hyperlipemic hamster
L. Niculescu, Anca Sima, Camelia Stancu, Laura Vladimirescu, Maya Simionescu 106

The role of Zinc in hyperglycemic status immunity stimulation
Magda Badescu, Manuela Ciocoiu, Codruta Fratu, L. Badescu 111

The influence of a *Vaccinium corymbosum* Lam. (Highbush blueberry) leaf extract on the ultrastructure of kidney and adrenal glands of rats with experimentally induced diabetes
Alina Ilie, C. Craciun, M. Tamas, Veronica Craciun 115

III. PHARMACOLOGY. MORPHO-PHYSIOLOGICAL AND BIOCHEMICAL DATA

- Ultrastructural and biochemical modifications induced by simultaneous treatments with dermocorticoids and Propranolol in the liver of rats
C. Craciun, Corina Rosioru 135
- Electron microscopic aspects of the effects of some prostaglandin analogs on mouse testis
M. Nechifor, Anca Indrei, Carmen Lacramioara Zamfir, L. L. Indrei, Gr. Mihalache 166
- Histological studies concerning the action of cyclophosphamide on the hematopoietic system of Wistar rats
A. Ardelean, V. Miclaus, C. Craciun, Veronica Craciun, Anca Hermenean 171
- A comparative study on the influence of *Calendula officinalis* and *Echinacea angustifolia* alcoholic extractions on the chicken immune organs
Marina Spinu, Rodica Giurgea 180
- Correlations between biochemical indicators of immune organs in chickens treated with *Echinacea angustifolia* and *Calendula officinalis* alcoholic extractions
Marina Spinu, Rodica Giurgea 183
- Vegetal extracts influence several immune parameters in antigen primed hens
Marina Spinu, F. Brudasca, V. Dobrean, Anca Opris, Carmen Sandru 186
- The effects of several vegetal extractions on the *in vitro* blast transformation of leukocytes from bovines infected with enzootic leucosis virus
V. Dobrean, Marina Spinu, Gh. F. Brudasca, Anca Opris, Carmen Dana Sandru 191

Histological and electronmicroscopical studies concerning the actions of some glucocorticoids upon the pancreas of prepubertal rats, before and concomitantly with the beta-adrenoreceptors blocking C. Craciun, V. Miclaus, Veronica Craciun	194
Structural and ultrastructural modifications induced by simultaneous treatments with dermocorticoids and Propranolol in the adrenal glands C. Craciun, A. Ardelean, Veronica Craciun, V. Miclaus, L. Barbu-Tudoran	225
The protective action of Magnesium ions and B6 vitamin upon some morphological and functional parameters in hypothalamus and anterior pituitary of white juvenile rats treated with l-monosodium glutamate C. Puica, C. Craciun, Doina Sandu, M. Cristescu, M. A. Rusu	246
The oxidative stress in experimental physical stress and the antioxidant role of vitamins E and C Manuela Ciocoiu, Magda Badescu, Ioana Paduraru, Veronica Colev-Luca	255
Ultrastructural effects of some glucocorticosteroids upon Langerhans cells in rats Simona Frățila, C. Craciun, Veronica Craciun, O. Fratila, B. Cuparencu	258
Licopine influences several parameters of the immunological profile in pigeons Gh.F. Brudasca, Marina Spinu, V. Dobrean, Anca Opris, A. VasIU	266
Functional, structural and ultrastructural aspects in the thyroid of rats treated with thiouracyl, thyroxine and thyreotropin releasing hormone (trh) Ioana Roman, C. Craciun, Maria Borsa, Veronica Craciun, Daniela Bochis, M. Rusu, C. Puica	269
Structural and ultrastructural aspects of the rat thymus after Carboplatin chemotherapy Cristina Pasca, V. Miclaus, C. Craciun, A. Ardelean, Erika Kis, Victoria-Doina Sandu, Veronica Craciun, I. Papuc	276

Purification of F1Fo ATP synthase from alkaliphilic *Bacillus pseudofirmus* OF4
H. Banciu 285

The ultrastructural modifications induced in the *Mus musculus* hepatocytes, by a total fatty oil extract from *Nigella sativa* seeds
G.C. Corneanu C. Craciun, M. Iacob, Veronica Craciun, Mihaela Corneanu, Em. Grigorescu, M. Zagnat 290

IV. CELLULAR AND MOLECULAR PATHOLOGY

Proteoglycans as therapeutic agents
M. Cruce, Catalina Pisoschi, B. Stanoiu, Margareta Grigorescu, Camelia Stanciulescu, A. Ardelean 303

Proteoglycans implications in pathology
Catalina Pisoschi, M. Cruce, A. Ardelean, Zorica Hertzog, B. Stanoiu, Camelia Stanciulescu 306

Molecular markers of cardiac hypertrophy pathogenesis
Magda Badescu, Manuela Ciocoiu, L. Badescu, Codruta Fratu 313

The influence of synthesis substances of no donor type on adrenal vascular and cellular structures with experimenting animals
Carmen Lacramioara Zamfir, Anca Indrei, L.L. Indrei 320

Histological modifications at the level of the rabbit kidney in experimental candida albicans septicaemia
V. Miclus 328

Osmotic fragility and lithium permeability of human erythrocytes suspended in normal and succussed solutions
Mariana Stejar, C. Bindea, C. Tarba 337

The phagocytic activity of macrophages from lymph nodes in dog parvovirosis
V. Miclus, C. Craciun 341

Calciphylaxis case in a sharp syndrom context – value and limits of DNA-double-stranded investigation
Georgeta Ciomaga, Irina-Draga Caruntu, Georgeta Munteanu, Silvia Roznovanu, G. Ungureanu, Gioconda Dobrescu, Sonia Elena Nanescu 346

Dyshomeostasis of purine metabolites and of some divalent trace metals related to nutrition and the biogenesis of uroconcrements
Gabriela Daranyi, V. Bucuras, Mirela Vincu, Z. Garban, M. Popa 349

V. THE PATHOLOGY OF DIGESTIVE SYSTEM

Hepatic aspects of ethanol acute experimental intoxication in rats
Anca Indrei, Carmen Lacramioara Zamfir, Gr.D. Mihalache, L.L. Indrei, D. Păduraru, M. Costuleanu, M. Nechifor 357

Correlations between cellular degeneration rate and the mucous secretion in *Helicobacter pylori* gastric infection
O. Fratila, V. Miclaus, C. Craciun, A. Lenghel, Veronica Craciun 362

Frequency of congenital abnormalities of the digestive tract in the period 1995-1999
Dina Coprean, I.V. Pop, Mariela Militaru, R.A. Popp, M.D. Grigorescu 370

VI. IMMUNOLOGY AND CANCER

The phenotypic identification in cell populations of non-hodgkin malignant lymphomas
Irina-Draga Caruntu, Gioconda Dobrescu, Ana Mercedes Ciurea 377

Transplantation of pancreatic islets - a hope for every diabetic
Manuela Ciocoiu, Magda Badescu, Codruta Fratu, L. Badescu 383

Prognostic significance of proliferative activity markers in cerebral astrocytomas	Alina Pintea, C.D. Olinici, Monica-Toader Radu, Adriana Olinic, Mariana Marginean, Anca Ionescu	388
Protein P53 in squamous cell carcinoma	Maria Crisan, Dina Coprean, V. Muresan, Maria E. Gocan, Anne-Marie Chindris, Carmen Melincovici, Ioana Gavrea	393
Bronchopulmonary cancer. etiology	Dina Coprean, I.V. Pop, Mariela Militaru, Maria Crisan, R.A.Popp, M. Grigorescu, Clara Baltariu, Cristina Marii	397
Intranuclear structures observed in the tumoural cells of the canine retinoblastoma	L. Oana	401
The influences of bovine leukosis enzootic virus on cell immunity	V. Dobrean, Mariana Spinu, Gh. F. Brudasca, Anca Opris, Carmen Dana Sandru	405
Mechanism of hypothalamic –pituitary-adrenal axis stimulation by immune signals in the adult rat	Mariana Marginean, I. Marginean, Alina Pintea	408

VII. PLANT CELL BIOLOGY

A light and electron microscopy study regarding leaf histo-anatomy and micromorphology in some species of psammophytes	Mihaela Tudose , Naela Costica, C. Tudose , Silvica Padureanu	417
Study regarding the leaf micromorfology and histoanatomy in two species of psammophytes: <i>Centaurea arenaria</i> and <i>Astragalus virgatus</i>	Mihaela Tudose, C. Tudose, Naela Costica, Marilena Maniu	423

The influence of spermidine pretreatment on the behaviour of long term gardenia callus	427
Maria-Mihaela Antofie, Aurelia Brezeanu, Monica-Elena Carasan	
Plasmid profile of some bacteriocins and exopolysaccharides producing lactic acid bacteria	436
Medana Zamfir, Calina Petruta Cornea, I. Vatafu, Monica Elena Carasan	
Comparative analysis for detection of the ability of mycorrhizas establishment using different species of <i>Glomus</i>	441
Carmen Maximilian, Monica Elena Carasan, Aurelia Brezeanu, Ana Rosu	
The effect of ethylene inhibitors on <i>in vitro</i> cultures of <i>Solanum</i> species	448
C. Aurori, G. Ciocan, Lenuta Rakosy-Tican, M. Trifu	
The recovery phenomenon in the <i>Dendrobium phalenopsis</i> somatic embryos after the action of an inertial force	451
G.C. Corneanu, Mihaela Corneanu, C. Craciun, M. Iacob, Veronica Craciun	
Comparative ultrastructure of some <i>Chlorophyta</i> and <i>Rhodophyta</i> from the romanian coast of the Black Sea	462
Elena Doroftei, A.Bavaru, Aurelia Brezeanu, Daciana Sava	
Ultrastructure of the <i>Ulva rigida</i> ag. thallus	471
Elena Doroftei, Daciana Sava, Aurelia Brezeanu	
Structural specific features of the stomatic apparatus in the leaf blades of some autochthonous ferns	478
Rodica Bercu, Loreley Dana Jianu	
The stomata apparatus density related with the morphology and anatomy of the leaf in <i>Sefflera digitata</i> L.	481
Rodica Bercu, Loreley Jianu, Elena Bavaru	

VIII. GENETICS

- Molecular bases of familial nonsyndromic cleft lip and cleft palate
C. Tudose 487
- Detection of human beta-globin gene mutations using the denaturing gradient gel electrophoresis (DGGE) method
C. Tudose, Mihaela Tudose, Marilena Maniu, C. L. Maniu, Monica Dragomir 491
- A comparative study of the mitotic chromosomes in two species of psammophytes: *Silene otites* and *Alyssum borzaeanum*
Mihaela Tudose, Marilena Maniu, Silvica Padureanu, C. Tudose C.L. Maniu 494
- The relationship genotype – sodium azide mutagenesis in spring barley
Marilena Maniu, Cr. Tudose, C. Maniu 498
- The cytogenetic reaction of different spring barley genotypes after herbicide *in vivo* treatment
Marilena Maniu, Cr. Tudose, Elena Truta, Mihaela Tudose 502
- The cytogenetic effects induced by Oltisan extra in some doubled haploid lines of barley, regenerated *in vitro*
Marilena Maniu 507
- Monoclonal antibodies to the syntetic polypeptide PS-19
Luminita Radulescu, Felicia Antohe 511
- Structure-activity relationship in case of interaction between cis-platinum and deoxyribonucleic acid
Z. Garban, I. Moldovan, Adina Avacovici, Gabriela Daranyi 517
- Correlation of the haemoglobin genotypes with the colour varieties of the Botosani karakul breed
Gh. Hrinca, G. Vicovan, Vl. Artenie, V. Miclaus 523

Cytogenetic aspects in autosomal aneuploidies	
Mariela Militaru, V.I. Pop, Dina Coprean, R.A. Popp, M. Militaru	528
Green fluorescent protein (GFP) – a new marker gene for plant genetic engineering	
Lenuta Rakosy-Tican, Adriana Aurori, C. M. Aurori	532
Genetic transformation of <i>Solanum tuberosum</i> dihaploid lines	
C. Aurori, Lenuta Rakosy-Tican	538
<i>In vitro</i> regeneration and genetic transformation of sunflower (<i>Helianthus annuus</i> . L)	
Adriana Aurori, Annamaria Szmolka, Lenuta Rakosy-Tican	543
Testing the mutagenic effect of derosal (carbendazime)	
Cornelia Craciunas	547
Genotoxic effects generated by pollution agents from the Crisul Repede river	
Cornelia Craciunas	553

IX. STOMATOLOGY

Histological research regarding the development of human dental bud papilla	
C. Tudose, Monica Dragomir, Mihaela Tudose	559
The epithelium-mesenchyme interaction during human tooth morphogenesis	
C. Tudose, Monica Dragomir, Mihaela Tudose	562
Dentin sialoprotein – possibly a factor involved in the epithelium-mesenchyme interaction during tooth development	
Monica Dragomir, Carmen Elena Cotrutz, C. Cotrutz, Minodora Baltatescu, Monica Medrihan, T. Petreus, C. Mosoiu, C.R.Ionescu, C. Tudose	567

A histological study of carious dentin autofluorescence in relation with its mineralisation degree	
Monica Dragomir, C. Tudose, Mihaela Tudose, Gabriela Halitchi	570
Contributions to the study of dentinogenesis	
Stefania Craitoiu, Monica Craitoiu	574
Histological aspects of different areas of the oral mucosa	
Stefania Craitoiu, Monica Craitoiu	579

X. GENERAL BIOLOGY

A computational study on the possibility of low-threshold Ca ²⁺ spike generation in neocortical neurons	
Otilia Paduraru	588
A model of a neuronal structure able to generate collective oscillations similar to human parietal alpha rhythm	
Otilia Paduraru, Hariton-Nicolae Costin	596
The testing by histological study of the tolerability of Dexon thread, in kidney suture in dog	
V. Miclaus	602
System for students education in Cell Biology using the informatics	
Cristina Dascălu, Elena Carmen Cotrutz, C. Cotrutz, Gabriela Georgescu	606
Influence of prolonged conservation in liquid nitrogen upon pregnancy rate obtained from freezing – thawing ovine and caprine embryos	
Stela Zamfirescu, D. Copreanu, A. Sonea	612
Correlations among the organic internal constants depending on the qualitative features of the lamb pelts of the Botosani karakul breed lambs	
Gh. Hrinca, Stela Zamfirescu, Vl. Artenie, M. Groza	616

Linear simple correlations between the organic internal constants and the production traits in the colour varieties of the Botosani karakul breed Gh. Hrinca, Vl. Artenie, Stela Zamfirescu, M. Groza, V. Miclaus	623
Ultrasonographic–morphologic correlations of the placenta in normal pregnancies Carmen Mihi, D.Mihu, Monica Toader Radu	630
Aspects of electron microscopy in rat parotid, stimulation and inhibition of the salivary secretion process Carmen Mihi, Monica Toader Radu, C. Craciun	638
Morpho-physiological characteristic aspects of milk phagocytes, constituents of the monocyte-macrophagic complex L. Ognean	644
Structural particularities of the membrane situated between fingers in nutria (<i>Myocastor coypus</i>) I.Papuc, V. Miclaus, Cristina Pasca, Vioara Miresan, L. Oana, Antonia Odagiu	649
The artery elastic fibres at the level of thorax member in nutria (<i>Myocastor coypus</i>) I.Papuc, V. Miclaus, Vioara Miresan, Cristina Pasca, L. Oana, Antonia Odagiu	653
Alphabetic Index of the Authors	657
